## **Questions to Ask Your Doctor**

### **Multiple Myeloma**

- What clinical trials are available for me? Where are they located, and how do I find out more about them?
- Can you explain my pathology report (laboratory test results) to me?
- Am I symptomatic or asymptomatic? What does this mean?
- What stage is the myeloma? What does this mean?
- Is my kidney function being affected?
- Would you explain my myeloma treatment options?
- Is active surveillance (watchful waiting) an appropriate option for me?
- What treatment plan do you recommend? Why?
- What is the goal of each treatment? Is it to eliminate the cancer, help me feel better, or both?
- What treatment options can help reduce or manage my symptoms?
- Who will be part of my treatment team, and what does each member do?
- How will this treatment affect my daily life? Will I be able to work, exercise, and perform my usual activities?
- What long-term side effects may be associated with my cancer treatment?
- If I'm worried about managing the costs of cancer care, who can help me?
- Whom should I call with questions or problems?
