We are required by law to maintain the privacy of your health information and provide you with this Notice of Privacy Practices information concerning our legal duties and privacy practices regarding your health information. CGCC/AOP will abide by the terms in this Notice.

This Notice also describes our obligations under the Confidentiality of Substance Use Disorder Patient Records regulations at 42 CFR Part 2, which provide additional protections for certain substance use disorder records.

This Notice describes how medical information about you may be used and disclosed under HIPAA and 42 CFR Part 2.

How We May Use Your Health Information

We may use and disclose your health information for the following:

Treatment

We may use your health information to treat you and provide health care services. Examples of uses of your health information for treatment purposes are:

- Information obtained by a nurse, physician, or other member of your health care team will be recorded in your record and used to determine the course of treatment that should work best for you.
- Your physician will document in your record his or her expectations for the members of your health care team. Members of your health care team will then record the actions they took and their observations. In that way, the physician will know how you are responding to treatment.
- We will also provide your other subsequent health care provider(s) involved in your care with copies of various reports that should assist him or her in treating you.

Appointment Reminders

We may use and disclose your health information to contact you as a reminder that you have an appointment for treatment or medical care at CGCC/AOP or another entity/health care provider for whom we schedule services.

Payment Purposes

We may use and disclose your health information to bill for your health care services in accordance with applicable state and federal law and regulation. We submit requests for payment to your health insurance company or other appropriate payer. The payer (or other business associate helping us obtain payment) requests information from us regarding medical care given. We will provide information to them about you and the care given.

Health Care Operations

We may use and disclose your health information for health care operations such as quality assessment and improvement, training, credentialing, medical review, legal services, and insurance functions. We may share information with business associates who perform these activities on our behalf.

Certain health information related to substance use disorder (SUD) diagnosis, treatment, or referral for treatment is protected by federal law under the Confidentiality of Substance Use Disorder Patient Records regulations at 42 CFR Part 2. These records may have additional protections beyond those required by the Health Insurance Portability and Accountability Act (HIPAA).

Substance Use Disorder Records – Treatment, Payment, and Health Care Operations

With your written consent, we may use and disclose substance use disorder records for treatment, payment, and health care operations as permitted by 42 CFR Part 2 and HIPAA. A single written consent may authorize multiple future uses and disclosures for these purposes. All uses and disclosures are limited to the minimum necessary as required by law.

Redisclosure of Substance Use Disorder Records

Substance use disorder records protected by 42 CFR Part 2 may not be redisclosed unless permitted by federal law. Any recipient of Part 2–protected information is prohibited from using or disclosing the information in a manner that would violate 42 CFR Part 2 or other applicable laws.
